

EMERGING TRENDS IN ELECTRICAL AND MECHANICAL ENGINEERING INTERNATIONAL CONFERENCE 2026

Online international conference connecting academia, research, and industry

Call for Papers

The conference welcomes original contributions in emerging areas of electrical and mechanical engineering, including interdisciplinary approaches linking theory, practice, innovation, and industrial application.

Authors are invited to submit an **abstract** for initial review. Following abstract acceptance, authors may be invited to submit a **full conference paper** for consideration for the conference proceedings. Accepted contributions will be presented at the conference in the form of **oral presentations**.

Topics

Energy, Power Systems and Electronics
Mechanical Design, Materials, Manufacturing and Industrial Engineering
Mechatronics, Robotics and Automation
Thermofluids, Heat Transfer and Thermal Systems
Embedded Systems, Computational Models and Digital Twins
Sustainability Assessment in Engineering Systems

Awards and Distinctions

Best Student Paper Award
Best Industry Contribution Award
Best Research Contribution Award

Important Dates

Abstract submission: **30 June 2026**
Conference paper submission: **7 September 2026**
Conference date: **25 September 2026**

Format

Online conference
